

Cedar Point Postcard

After 50 years of research and educational success, we at Cedar Point are now engaged in securing a bright future for our students. Please help us by contributing to our crowdfunding effort to support the Cedar Point Works program. Cedar Point Works is our core experiential learning opportunity for undergraduate students. Your contribution directly supports students who stay at the station to work and take classes, providing a base of support for the whole station. We aim to build a lasting endowment for this program, and every little bit helps. [Go here to donate](#), or follow the QR code above. Thank you!--
